Citation-Name System

In-text Citations

- Sources numbered in your reference list are in alphabetical order.
- In-text citation\(^1\) refers to the first source in your reference list.

Example

Recent technological developments have made it feasible to measure pathway structure systematically, using high-throughput screens for protein-protein\(^{17}\), protein-DNA\(^{20,31}\), and genetic interactions\(^{30}\).

Reference List Format of Citations

- Authors’ first name initials are capitalized after their surnames. Ex. Belli AR, Smith JT, Collier M.
  - For books with more than 10 authors, list the first 10 followed by “et al.”
- Only the first word of a title should be capitalized.
- Titles are not italicized, but species names are.
- Journal titles are abbreviated according to the ISO 4 standard. Use The CAS Source Index (CASSI) for help.
